CHICAGO PRODUCE MARKETS.

CHICAGO, April 25 .- [Special Telegram to THE BRE |- The spirit of the wheat trace was bullish to-day, and prices averaged considerably higher than yesterday, cash and the whole list of futures participating in the improvement. The change of sentiment was occasioned by the change of attitude on the part of several prominent operators, and by the gradual development of a feeling among ccuservative people that perhaps the next crop had been discounted as much as it was safe for the present, and by marked improvement in the cash trade. The coolness of the weather may have had something to do with this revulsion of sentiment. The wheat plant is very far advanced as a rule, and the bare thought of a possible frost is terrifying to the shorts as well as to the producers. The opening this morning was about %c above yesterday's closing. There was a lively deal in May, June and July right from the start under the varying conditions. There was plenty of May wheat for sale at 81c, and it was with difficulty that sales could be June, on the contrary, was bouyant made. June, on the contrary, was bouyant from the jump. The opening was nominally \$114c, but very little business was done below 82c, active trading beginning around \$134c. The active demand for June started May, and that, too, suddealy jumped, going from 81c asked, to 8134c in very short time. June did not stop until 824c was reached. From the outside range, as given, there was a 36034c reation, but the general undertone %@%c reation, but the general undertone a 3/60% reation, but the general undertone of the market was that of strength. May closed at 78½c and June at 81½c, July wheat opened at 81½c, an over night jump of 3/c. An advance to 79½c was quickly made, but after the wire edge of the boom had been dulled the price worked off to 78½c. Hutchinson, Ream, and, in fact, the great majority of the professionals, were busy buying, and the sentiment was were busy buying, and the sentiment was general that a continuation in the upward movement was in order. July wheat was rushed up from 78% to 79%c. A reaction to 79%c was next in order, and for the last hour the price hung around 79½c and closed there. As compared with yesterday, May closed at an advance of ½c, June 1½c and July 1½c. Operations in futures were about the average in volume. The public is taking quite a lively interest in the market now, and commission merchants are wearing and commission merchants are wearing cheerful expressions as a rule. The underlying cause of the improved feeling in wheat, which is not confined to Chicago, but takes that whole country and a part of the old world as well, is the active milling and shipping demand. Flour makers are taking wheat wherever they can find bargains. At this point millers are taking contract wheat, one sale of 35,000 bushels of No. 2 red for immediate shipment being reported, as well immediate shipment being reported, as well as smaller lots for country points. There was a continuance of the firmness

shown yesterday in the corn market the main support of which is the demand for cash corn, all grades of which were in excellent demand to-day at higher prices. The foreign markets were reported firm and higher, but, as noted above, shipments from the Atlantic ports were light. From New Orleans yesterday 17,000 bushels were cleared for London and 164,000 bushels for Rouen. The receipts here are running light, and although that is probably caused by the favor-able weather for farm work taking up the time of the farmers, which would otherwise be used in drawing grain to market, it has its effect upon the minds of the speculators. The smaller quantity inspecting No. 2 was a! ... in favor of more confident buying. The market was narrow and confined to a range of from 1/c to 3/c, and the closing prices demand is best for the more deferred de-

Oats were rather quiet, though firm, with Oats were rather quiet, though firm, with liberal aggregate speculative business noted, largely in the way of changes. There was free selling of May at about 22%c, and buying of June in exchange at 23%c, or %c difference. May sold at 22%c up to 22% (22%c) and July at a further premium of %c. The receipts were only moderate, but there were advices of larger shipments from country. advices of larger shipments from country points after to-day, in order to escape storage tharges before delivery day next Wednesday. The shorts considered the time opportune to cover, and as their buying was heavy and protracted, and proved to be more than suffi-sient to absorb the offerings, sellers were able to show considerable independence They, in fact, held the balance of power, and for pork prices at adjournment showed a net advance for the pay of 1234@15c, and for short ribs of 734@10c. Lard closed unchanged to 21/c higher.

CHICAGO LIVE STOCK.

CHICAGO, April 25 .- [Special Telegram to THE BEE.]-CATTLE-The supply to-day was not large and the fact that the run for the week was 8,000 less than last week, and that the general demand was good gave salesmen a better chance. Many cattle were left over from yesterday. In about all cases sellers reported bids as high as yesterday on stale cattle and in some cases they received bids or cattle that were wholly neglected yesterday. Light cattle of nice quality in some cases sold a shade higher, while heavy cattle were parely steady. There was a liberal volume of business done and on the whole there was not much change in prices. Choice to extra beeves, \$4.30@4.50; medium to good steers, 1350 to 1500 lbs., \$3.80 @4.20; 1200 to 1350 lbs., \$3.50@3.90; 950 to 1200 Us., \$3.40@3.60; stockers and feeders, \$2.50@3.60; cows, buils and mixed, \$1.75@ 8.15; bulk, \$2.30@2.50; Texas steers, \$3.00@

Hogs.—The market was active with the bulk of the sales of prime to good mixed at \$4.60@4.65; in fact, not half a dozen loads sold under or below this range, which was exactly the same as at the close yesterday. The last sales, however, were a shade better than at the opening, and about everything was closed out. Light sorts sold within a range of \$470(64.82)4.

FINANCIAL.

NEW YORK, April 25 .- [Special Telegram to THE BEE. |-STOCKS-There is so little positive force in stocks that outside influences easily affect the market. The first noticeable feature this morning was the higher prices in Loudon. The result was an advance of from % to % per cent on all stocks showing any activity. The gains recorded at the opening were 1/4 for Burlington and Northwestern, % for Cotton Oil, Chicago Gas, Oregon Transcontinental and New England, of for Atchison, Reading, Rock Island and St. Paul, % for Louisville & Nashville and Union Pacific. There was more than the usual activity of late, but as on the previous days the animation was limited to a few stocks with Louisville, Atchison, Union Pacific and Chicago Gas leading. There was considerable selling on the advance, but the losses were slight and a better feeling before the end of the hour more than regained the first fleures. Pullman and Manitoba were the exceptions to the list and made early advances of 236 per cent each. As on the previous days, duliness reigned before noon. The activity dwindled to Reading and Louisville and a very few others, while the fluctuations were narrow and insignificant and prices were held at better than the opening figures, with sales of 103,000 shares. The strength of the stocks returned with the activity after 18 o'clock, and the active stocks

Metal Market. A London cable to the American Meta

Market April 19, gives the following quotal tions: TIN-But four business days have been had this week, and the opportunity for an ex tended movement by so much lessened Values were fairly steady on Monday fore-noon, and forward delivery even firmer later in the day, closing at 2s 6d advance to £92 17s 6d, while spot was worth 20s less. The same relation was maintained the next day at a 2s 6d decline all around, succeeded by an advance to £92 5s and £93 yesterday, spot closing easier again. To-day there was only one 'Change, at which spot was again firm at £92 5s, and three months prompt advanced to

£93 5s. Copper.-Increased uneasiness begins to prevail, as no settlement of the existing difficulties is announced, rumors being cir culated instead that none will be reached Very large transactions are again reported but about the only buying is by those who had already sold bear; and the supply is sufficiently liberal to effect a steady decline. The loss at Monday's early Change was 10s. but the market closed for the day fairing steady at £377s 6d spot. £37 10s forward. Another 5s was lost on Tuesday morning, but the closing was again steady; which was repeated yesterday after prices had got still 5s lower. No change was noted to-day, except that futures were flatter and down to even with spot, which closed at £37 after a few sales at even slightly lower figures. ANTIMONY-Stands unchanged for the

week at £49. Spelten-Again experienced an improve ment to £17 10s for Silesian. English Pig Inox—Stiffened up 18d on Monday to 38s 6d ruled steady thereat on Tuesday, advancing to 38s 9d yesterday, but reacting this foreneou to 38s 6d.
